CS2365-OOP-Project Part 3
Summer 2025

Customer Order System (COS)

Part 3:

Submit: Document with UML Diagram, all necessary Java files, and README.txt files included.

- The demo program with all Java files (Implemented Classes, Console Application, GUI Application).
- UML Diagram of classes.
- Place all necessary files into a single directory, compress them into a zip file, and submit the single zip file to the Canvas system.

Grading Rubric

General Instructions

- Review all the general instructions of Part 1 and Part 2.
- Confirm that the README.txt file has been revised and contains all needed information.
- Confirm that the GUI application runs successfully before submitting.

Evaluation Criteria (50 points)

UML Diagram of Classes used (5 points)

- All UML diagrams use correct notation and fully represent all classes in the project, clearly illustrating the relationships among them.

Java files of Implemented Classes (5 points)

- All the main classes of the system have been described in the UML diagram. (2.5 points)
- The program runs smoothly without any errors or warnings. (2.5 points)

Java files of Console Application (5 points)

- All the code used for the demonstration runs with the console application in accordance with the project requirements. (2.5 points)
- The program runs smoothly without any errors or warnings. (2.5 points)

Java files of a GUI application (25 points)

- All the code of the GUI application is implemented as required in the project. (10 points)
- The source code follows Java coding conventions for variable names, method names, class names, algorithm comments, and so on. (10 points)
- The program runs smoothly without any errors or warnings. (5 points)

README.txt (10 points)

- File containing text instructions for running BOTH the console application and the GUI application. (5 Points)
- Explains how to run the program: The information in the README.txt file should be presented in a clear, logical, and hierarchical structure to ensure easy readability and understanding. (5 Points)
